TWO TOPPERS. TWO 282S. ONE COMMON MENTORSHIP.

Both students joined with very different baselines & both cracked 282 in CSE 2025. This is not a coincidence. It's a system.

LET'S MAKE PSIR GREAT AGAIN !

In its inaugural year (2025), this programme commenced with a modest cohort of 30–40 students and nonetheless yielded top rankholders. The aim now is to amplify this approach and bring a new fresh perspective to **end the stagnation of the PSIR Scores**

Stuck **Below 240** in PSIR? Here's Exactly Why & the Fix.

ZERO BRAINSTORMING ABILITIES

A significant proportion of students are unable to effectively use thinkers such as Hannah Arendt in Paper 1B and Isaiah Berlin in Paper 2A.

✓ OUR SOLUTION

Cross-paper interlinkage training in the class itself along with PYQs.

POOR PYQ ANSWERS

Repeating standard answers everyone else writes — no differentiation, average scores.

✓ OUR SOLUTION

Concise, to-the-point PYQ answers + PYQ decoding for recurring UPSC trends. Write what the examiner rewards.

BLAND & REPETITIVE CONTENT

Your answer reads like everyone else's. Zero X-factor. The examiner moves on.

✓ OUR SOLUTION

X-factor enrichment notes and keyword documents that make your answers stand out.

ZERO FACULTY INTERACTION

Watching videos alone with no feedback loop — preparation stalls.

✓ OUR SOLUTION

Regular guidance via bi-weekly Zoom mentorship with the group, and 24×7 Telegram faculty support.

Topper-Level Brainstorming & Interlinking

Can you use Plato in Paper 1B ? Conclude judiciary with:
"Until philosophers become judges, or judges become philosophers, there can be no just society."

Straight from the **Toppers**

I am writing this with deep gratitude and joy. Thank you so much Deepank Sir for making my dream turn into a reality. Finally, after 3 years of average marks in PSIR, I got (282) in 2025!

Your content enrichment and PYQ classes proved to be a gamechanger for me. These classes helped me to actually like and "understand" PSIR which was missing in my previous attempts.

You also took out time to evaluate some of my answers before Mains and the feedback really helped me.

Thank you so much and I wish that you'll keep on making students fall in love with PSIR!

Getting a 218 in PSIR is basically UPSC asking, "kabhi PSIR padha bhi hai"?

Naturally, I took the road often taken - the OG high priests of PSIR in the market, but to no avail. It was amidst this confusion that I chanced upon Deepank Bhai's content. Deciding to take the road less traveled by, I joined the enrichment course right when the 'Mains Ready' junta was in prelims mode. But I trusted the process, and more importantly Deepank Bhai's faith in me. Even though the course was slated to end in February, I kept on sending my answers (+queries ☺) through March and April. He was too kind and generous with his support throughout - crisp content, ZDN notes, answer feedbacks... and also some motivation. I still remember one of his feedbacks, "Aman, aisa lag raha hai jisi topper ka answer padh raha hun". That confident push made (464) jump possible.

That indeed made all the difference.

Thank You, Deepank Bhai!

I am sincerely grateful to Deepant Bhaiya (Mahir UPSC) for his constant support & mentorship throughout my preparation. His guidance on answer writing for Mains & RAw documents for Prelims were especially valuable. His insights played a key role in improving my score to 122 in GS4. I deeply appreciate his encouragement and unwavering support.

Thanking You

Testimonials

Mahashweta Panda

"I'm able to understand the subject better and brainstorm answers after going through the lectures and notes. PSIR seems interesting and I'm genuinely **enjoying studying the subject rather than just finishing it as a task for the sake of exam.**"

Nitin Vats

"Sir has a great pedagogy. I just loved his content and understanding which is the first prerequisite. Apart from that his organic style with banters just makes it very interesting. **Really he can be hegemon in coming time in PSIR market. Thank you sir.**"

Tushar Tomar

"Really good learning experience overall

This is how any teaching should be... we read the content ..you enrich it..not just the notes but thinking also... forcing us to think...**best money ever spent**

The best part is when you give your raw views (like dont write this wala part)

Also, the way you operate in a low power distance setting..always approachable in the group itself

I have never reached out but i was (and 'am') more secure knowing i have a mentor if there is any problem in psir... thank you sir for that security..it is really helpful before mains...

I am sure sir you are going to be one of the best faculty in coming years

You are truly a Guru to me

Thank you sir and Happy Guru Purnima to you."

Isha Rawat

"Even though I watch recordings but the course is extremely interactive, the enriched content is top notch and the deliverables are **the best amongst whatsoever in the market I've witnessed till now.**

It has guided me in discovering the Platonic wisdom of knowledge of truth."

Shruti Bharti

"Sir, your classes have been amazing, the **inertia of answer writing is broken and all the gaps of conceptual understanding as well as PYQ based learning is plugged.** I am really grateful to have come across your course at an opportune moment. From my side, I really wish that you start full fledged course whenever its ready so that more students are benefitted. Your way of teaching is also superb. **Please continue teaching and making students fall in love with PSIR again.**"

Dheeraj Kumar Panchal

"Perfect content enrichment course, in fact it is not a crash course but a whole syllabus run through. Quality notes, great articulation of data and facts."

"It pushed me to think in directions i never knew existed . Your insights struck the right chord in my mind with every class. It brought me to think why I chose PSIR in the first place and made me fall for it all over again . I think it was the best decision that I made in my 3 year prep . I can't thank you enough for your endless support."

Rajiv Kumar

"The course gave me much more than I imagined. The content, the interconnected-ness, the brainstorming, the **delivery of Deepank Sir, him being easily reachable and answering every doubt.** Never thought I would be using PSIR keywords in my daily life. More than PSIR he has taught how to think, how to perceive things."

Bidhi Baral

"The Enrichment lectures were a snapshot of the entire topic which helped fill in concept gaps. The PYQ lectures helped understand the real demand of the question. Both the enrichment and PYQ lectures reinforced each other. Most importantly, the fixed schedule helped me go through the whole syllabus once without ignoring any section. Overall, I'm in a much better place than I would have been in, had I not gone for the course. Thank you, Sir!!."

Pushkar Singh

Thnks for the immense valuable guidance. I still remember i was going to buy some other course and when i see my mains appearing psir friends who have purchased the same , i really feel thankful ki i chose yours . They are at same level of 2025 with just new content addition . Ab toh wo koi bhi question puchte hain mere se i just feel i know all of them . I hope bas UPSC reward kar de is cheez ko fir toh naya par haai . Baaki once again thnkew for bringing PSIR back from heaven to Polis for me under your authoritarian model🙏
