The MEP Experience

Yes, it's helpful. Till now I've only attended Ethics classes, Sir explained complex concepts in a very simple and practical manner with relatable examples and case studies. The classes not only strengthened conceptual clarity but also improved my ability to approach ethics subject. Sir's guidance on answer presentation, value integration, and real-life application made the subject much more interesting and easier to understand.

Thank you for the support.

Student Review

Thankyou to Mudit Sir and his entire team, I am having a great experience with this course. The teaching quality is excellent, and the concepts are explained clearly and effectively. The course content is well-structured, informative, and of high quality. Overall, it is a valuable and worthwhile learning experience. I would definitely recommend this course to others.

Student Review

I have found the Mains Excellence Programme by Decode Civils to be highly structured & based on the actual demands of the UPSC Mains examination. Mudit Sir explains concepts with clarity and emphasizes answer-writing, Interlinkages, and analytical thinking rather than rote learning. The classes are concise, well-organized and supported by quality study material. Regular practice & feedback have helped me improve my approach to writing Mains answers. The Programme is particularly useful for developing value addition through examples & case studies. Overall, it has been a worthwhile investment for strengthening my Mains Preparation for 2027.

Student Review

Sir, I am working Professional so I don't get enough time to Prepare --- But mudit Sir's MEP course is suitable to me ---
Sir is very disciplined and classes are also not boring. Fear of Answer writing will be no more in the end of the course. This I can guarantee ---

More Than a Course

A COMMUNITY THAT REVIEWS LEARNS & GROWS

1. Use more ethical keywords like accountability, autonomy, transparency, digital dignity, and informed consent.
2. Include more recent and specific examples (e.g., AI deepfakes, Cambridge Analytica, DPDP Act).
3. Frame dilemmas clearly in "X vs Y" format (e.g., Privacy vs Security, Free Speech vs Responsible Speech).
4. End with a stronger value based conclusion or a short quote.

Hey Guys, please give your on my...

I went through your answer. It is well structured. The flow from the positives of social media to its challenges and ethical dilemmas is good. Your use of examples like Cambridge Analytica and government accountability through social media adds value.

Whatever you understood from the class just start writing, don't be overwhelmed by the answers you read because they have practiced for a long time now to achieve perfection.

No matter how distorted, nonchalant your answer is , just start.
